Introductory remarks

The present document contains a preliminary set of provisions for the Rules of Procedure of the Unified Patent Court (hereinafter "UPC" or "Court").

Basic principles of procedural law are already laid down in Part III of the draft Agreement on a UPC (hereinafter "draft Agreement"), for instance proportionality and fairness, case management, right to be heard, publicity, stages of the proceedings etc. The draft Agreement also contains general provisions on languages, parties, representation, means of evidence, experts, and defines the powers of the UPC to order provisional measures (in particular preliminary injunctions), to issue orders to preserve evidence (*saisie-contrefaçon*), corrective measures etc.

However, in several places in the draft Agreement, references are made to "Rules of Procedure" which shall spell out procedural details. This is a tried and tested legal technique: only the basic principles have been included in the draft Agreement, many procedural details being left for secondary legal instruments (rules of procedure, practice directions).

In accordance with Article 22(2) draft Agreement, the Rules of Procedure of the UPC shall be adopted by the Administrative Committee, on the basis of broad consultations with all stakeholders and following an opinion of the European Commission on the compatibility of the Rules of Procedure with Union law. Users of the patent system have however repeatedly requested that preparatory work on the Rules be started at an early stage, in order to enable a better assessment of the functioning of the future Court in practice.

It was envisaged that the Contracting Member States would, immediately after the signature of the Agreement, start the necessary preparations for the ratification of the Agreement to ensure its entry into force without delay. In parallel, the Contracting Member States would set up a Preparatory Committee in charge of preparing the practical arrangements for the early establishment and coming into operation of the Unified Patent Court. The Contracting Member States acknowledge the importance of appropriate Rules of Procedure for the Unified Patent Court and of their uniform application, which are vital to guarantee that the decisions of the Court are of the highest quality and that proceedings are organised in the most efficient and cost effective manner. However signature of the Agreement has been delayed pending agreement among the Contracting Member States on certain issues. This has in turn delayed the setting up of the Preparatory Committee. To avoid further delay in the work on the Rules of Procedure a small Drafting Committee of expert judges and lawyers was appointed to take this work forward.

The eighth draft prepared by the Drafting Committee was the subject of wide technical consultation with professional and industry bodies. A list of respondents who commented on that draft is set out below.

The present ninth draft is not a final draft of the Rules of Procedure. Further work is required as indicated in the draft and further comment from industry and other users would be welcomed. It is also envisaged that at an appropriate time a wider public consultation on the Rules of Procedure will be organised.

The aim of the Drafting Committee remains to assist the Preparatory Committee, when appointed, to complete the draft Rules of Procedure within three months of the signature of the Agreement.

Comment on the current draft should be addressed to the chair of the Drafting Committee at the following address: kevin.mooney@simmons-simmons.com

PREAMBLE

The Court shall conduct proceedings in accordance with the Agreement on a Unified Patent Court (“the Agreement”) and these Rules of Procedure. In the event of a conflict between the provisions of the Agreement and those of the Rules of Procedure, the provisions of the Agreement shall prevail.

The Rules of Procedure shall be applied and interpreted in accordance with Articles 22(3), 23(1) and (2) and 32(1) of the Agreement on the basis of the principles of proportionality, flexibility, fairness and equity.

Proportionality shall be ensured by giving due consideration to the nature and complexity of each case and its importance.

Flexibility shall be ensured by applying all procedural rules in a flexible and balanced manner with the required level of discretion for the judges to organize the proceedings in the most efficient and cost effective manner.

Fairness and equity shall be ensured by having regard to the legitimate interests of all parties.

In accordance with these principles, the Court shall apply and interpret the Rules of Procedure in a way which will ensure decisions of the highest quality.

In accordance with these principles, proceedings shall be conducted in a way which will normally allow the final oral hearing on the issues of infringement and validity at first instance to take place within one year whilst recognising that complex cases may require more time and procedural steps and simple cases less time and less procedural steps. Decisions on costs and/or damages may take place at the same time or as soon as practicable thereafter. Case management shall be organised in accordance with these objectives. Parties shall cooperate with the Court and set out their full case as early as possible in the proceedings.

The Court shall endeavour to ensure consistent application and interpretation of these Rules of Procedure by all first instance divisions and the Court of Appeal. Due consideration shall be given to this objective in any decision concerning leave to appeal against procedural orders.

Practice Directions shall lay down further details of the proceedings before the Court. They may not contradict or alter the provisions of the Agreement, the Statute or these Rules of Procedure.
