Hands-On Patent Litigation Seminar for Young Practitioners 2016:

Pharma litigation and
the Brexit referendum

**24 June 2016
9.30 am – 5.00 pm**

Young patent litigators are expected to work across Europe. Get ready to take advantage of great new opportunities for patent litigation! Keep informed and be a part of our up-to-date discussion about cross-border patent litigation, this year with a focus on pharma litigation and the Brexit referendum.

At this hands-on seminar in Central London, experienced litigators provide an overview of patent litigation in Europe, with a focus on the UK, the Netherlands, France and Germany – countries where 90% of the patent cases within the EU are litigated. You should attend if you want to learn more about the differences between these countries' systems and how the differences can be strategically used in cross-border patent litigation.

The seminar is free of charge, including the post-event networking dinner. **Please note:** Space is strictly limited. To RSVP, please click [here](#).
