Amsterdam, 1 April 2008

Dear members,

Young EPLAW, May 26 Brussels

I need your help! We have taken the initiative to organize the first Young EPLAW congress in Brussels on May 26. The congress is open for all patent lawyers up to 35 years old.

The day (and evening before) is a unique opportunity to learn and discuss about European patent law with an emphasis on direct relevance for the daily practice. It also is an excellent opportunity to meet young colleagues from all over Europe who practice the same law.

We will apply for the awarding of educational points where applicable.

I need the members of the EPLAW to support this initiative and to make sure that the youngsters working in your firm attend the event.

Attached you find the program and the registration form. The low fee just covers the costs (if we have at least 100 attendees!). Please make sure to send your youngsters and to make sure they register. The youth is our future!

Kind regards,

Willem A. Hoyng
